

COCO PRO

Rocky Point Mulching's Coco Pro is the first Super Premium Potting Mix available to the market. Coco Pro is made up of a large percentage of Coconut Fibre and Coconut Chip, a renewable, sustainable and eco-friendly resource, to enhance rewettability, air-filled porosity, maximise water holding capacity and stimulate root growth. Coco Pro is the most advanced and highest quality potting mix, with exceptional growing results in the widest variety of plant types and applications.

AVAILABLE IN 30L BAGS
